

Kakuya Ohashi and Dancers is the most avant-garde dance company in Japan.

Our works explore people's physicality in contemporary society by adopting choreographic methods from Butoh by Tatsumi Higikata.

This is to inform you of our event "BLEACHED" held on March 7th, Saturday.

"BLEACHED" is a new work of **Kakuya Ohashi and Dancers** with a live music play by "jabo".

The place is an abandoned bike park in the middle of the city. The piece explores the relationship between people and the city, which begins with a background deprived (Bleached) situation. This is a site-specific piece in which the performing space plays a significant factor. Also, it collaborates with musicians who lead Tokyo's music improvisation scene today.

Do not miss the very moment that dairy life tangles and the relationship between people and the city is changing every second by dance, music, and city.
